

Historical P5: flip-flop allocation (66,492 FF)

Weight-store formulas reconciled to the measured full-core synthesis total

Store = 60,066 + 1,278 + 972 = 62,316 FF (93.72% of the measured core total).

71e7d5a source / P5 / Vivado 2018.3. FF counts are not ASIC cell area or measured power.
